

PARTNERING  
ALONG NEW LINES

# ENABLING YOUR SUCCESS

## STRATEC GROUP – AN INNOVATIVE PARTNER

Building on our unparalleled range of technology and expertise gained from over forty years of automating laboratory processes, we have established ourselves as one of the world's leading providers of automation solutions for life science companies, including in-vitro diagnostics and translational research, especially for highly regulated markets.

At STRATEC, we understand your needs and vision, from the initial idea to the development and approval process – all the way to the long-term manufacture of the final product. Our commitment continues while your system is in series production, with us assuming responsibility for concurrent engineering, support and life cycle management.

Our partnerships are built on mutual trust, continuity and professionalism. We share a common mission with our partners, as we always aim to develop safe and state-of-the-art products that consistently meet your and your customers' expectations.

Together we make it happen!

Instrumentation

## INSTRUMENTATION

We design, develop and produce innovative fully automated solutions to meet your requirements, maximizing the performance of your reagents and introducing proven technology to optimize reliability. We are constantly exploring new options, enhancing our existing systems and developing cutting-edge technologies in line with industry best practice. You will benefit from our proven track record of delivering market-leading diagnostic systems and software, such as for random access molecular testing, heterogeneous and homogeneous immunoassays, single molecule detection and microarray-based technologies.

Customers who develop their own automation solutions can also tap into our extensive expertise. We have a broad and expanding pool of reliable and proven modules and components, which means our partners can fully focus on their core strengths and make optimum use of their development and production resources.

## SELECTED PRODUCTS

LIAISON® XL  
DiaSorin

Simoa™ HD-X Analyzer  
Quanterix

LIAISON® XS  
DiaSorin

NEO IRIS®  
Immucor

PANTHER FUSION™  
Hologic

Evolution™ Cartridge  
MyCartis

Dispense Cartridge  
STRATEC

Consumables

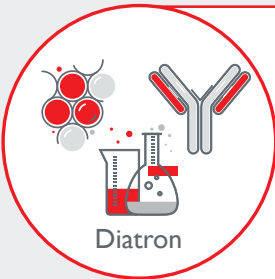

FlexiMass™-DS MALDI target  
Shimadzu Biotech

Simoa™ Disc  
Quanterix

### CONSUMABLES

STRATEC Consumables provides a comprehensive range of services to help you create customized consumables with the most appropriate polymers. We have dedicated several years of research and development into forging a unique combination of specializations, including nano- and micro-structuring, coating technologies, polymer sciences and automated assembly. We take your ideas from concept to mass production!

Diatron

### DIATRON

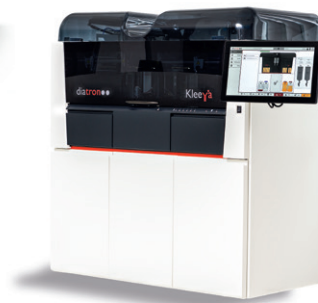

Our Diatron brand offers instruments and associated reagents in the field of hematology and clinical chemistry for both human and veterinary use. Our portfolio includes smaller ELISA, IFA, CLIA and MDX instruments and platforms. At Diatron, we not only pride ourselves on the performance of our products, but also the quality of our support through our comprehensive product training programs and our excellent technical support and customer service teams.
